WO!skimmer™ Calcium Reactors

Model	CR-150	CR-200
Size	310*270*530mm	360*270*530mm
Reaction Chamber Diameter	150mm	200mm
Pump	NS-3000 25W	NS-4000 33W

Micro Adjustable Valve
For easy and precise setting of water level in the skimmer body.

Bubble Free
The water exists the skimmer chamber around the bottom where it is almost bubble free.

Bubble Plate Design
It reduces bubble turbulence and hence minimizes premature bubble bursting. This result in the reduced height of the skimmer body allowing the skimmer to easily fit into most installations.
