Pump	9W	15W	33W	33W	25W	50W	50W	25W	33W	33W*2	25W*3	50W*2	85W*3

Micro Adjustable Valve
For easy and precise setting of water level in the skimmer body.

Bubble Free
The water exists the skimmer chamber around the bottom where it is almost bubble free.

Bubble Plate Design
It reduces bubble turbulence and hence minimizes premature bubble bursting. This result in the reduced height of the skimmer body allowing the skimmer to easily fit into most installations.

Distinguishing feature
